Cookie Policy

What are Cookies? Cookies are small data files that are placed on your computer or mobile device when you visit a website. Cookies set by the website are called “first party cookies”. Cookies set by parties other than the website are called “third party cookies”. Third party cookies enable third party features or functionality, such as advertising or website analytics, to be provided on or through the website. The parties that set these third party cookies can recognize your computer or device both when it visits the website in question and also when it visits certain other websites and/or mobile apps.

What Cookies and Other Tracking Technologies does Ferris Use? We use several different kinds of cookies on this Site, including strictly necessary cookies, which are cookies that are necessary for the Site to function and cannot be switched off in our systems; performance cookies, which allow us to count visits and traffic sources so we can measure and improve the performance of our Site; and functional cookies, which enable the Site to provide enhanced functionality and personalization.

Cookies are not the only way to track visitors to a website. We may use similar technologies from time to time, like web beacons (sometimes called “tracking pixels” or “clear gifs”). These are tiny graphics files that contain a unique identifier that enable us to recognize when someone has visited our Sites. These technologies often depend on cookies to function properly, and so disabling cookies may impair their functioning.

If you sign up to receive our e-mails, we will also use cookies in conjunction with these emails. When your browser downloads any graphic content in the e-mail, we will also place a cookie on your computer that will tell us if you come to our website at a later date.

Third-Party Cookies. In addition to our own cookies, we collaborate with various third-party service providers who also use cookies to help us optimize our website and understand more about the visitors to our website. For example, we may use [Google Analytics](#) to provide us with demographic information about our visitors and to help us analyze how people use our website.

How Can You Disable Cookies and Other Tracking Technology? Most browsers let you remove or reject cookies. To do this, follow the instructions in your browser settings. Many browsers accept cookies by default until you change your settings. For more information about cookies, including how to see what cookies have been set on your computer or mobile device and how to manage and delete them, visit www.allaboutcookies.org and www.youronlinechoices.com.

Some Internet browsers also may be configured to send “Do Not Track” signals to the online services that you visit. We currently do not respond to “Do Not Track” or similar signals. To find out more about “Do Not Track,” please visit <http://www.allaboutdnt.com>.
